Town of Firestone to cease providing community recycling bins

The community recycling bins located north of Firestone Town Hall will no longer be available for public use effective Jan. 9.

In researched conducted by Town staff, it was determined that many other local municipalities provide recycling through their trash program. However, the Town's provider – Gator Rubbish – does not have this option. Staff considered many options with local providers, but did not find an ideal community recycling service that would fit the needs.

Signs have been posted noting the cancellation of the community recycling bins. For any questions, please contact Firestone Town Hall at 303-833-3291.
